Make No Mistake If you decide, from what you have heard of its cures or read of its merits, that you will take Hood's Marsaparilla, do not be induced to buy something else which may be claimed to be "about the same" or "just as good." Remember that the sole reason for efforts to get you to purchase some substitute is that more profit may be made. Firmly resist all inducements, and insist upon having just what you called for, Hood's Sarsaparilla. Then you will not be experimenting with a new article, for Hood's Sarsaparilla is

Tried and True. "In one store the clerk tried to induce me to buy their own instead of Hood's Sarsaparilla. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was, I had taken it, was perfectly satisfied with it, and did not want any other." MRS. ELLA A. GOFF, 61 Terrace Street, Boston,

"We could not be without Hood's Sarsaparilia. It is the best medicine we ever kept in the house. My family are all taking it." MRS. J. M. BARBER, San Joaquin and Fremont Streets, Stockton, Cal. The company thinks that the property is one that should be worked on a large scale. It is proposed to put down three com-partment shafts, 1,000 feet, over by the Neenah shaft, where the big mother lode of rich copper is. This alone will give them ore enough to run three or four smelters. Two new 50-ton smelters are to be erected at once.

Superintendent Bradstreet, of the Phenix mine, received instructions last evening from his company in New York, to the effect that arrangements for building the new 70-stamp mill were about completed, and that everything was now favorable for a speedy completion of this extensive improvement.
